building character, competence and collaboration

Madison Police Department Training Center

## No Body Homicide Case Investigations

### SPECIAL GUEST PRESENTER:

**Cynthia A. Murphy, M.Sc.**

**(President, Gillware Digital Forensics)**

This two-day class will provide investigative tools to build a prosecutable murder case as well as take it to trial without a body being recovered. The presenters are AAG Robert Kaiser and Lt. Marianne Flynn Statz. Kaiser is renowned for his expertise in stalking cases, he has prosecuted two No-Body homicide cases and provides expert consultation to fellow prosecutors nationwide. Flynn Statz has over twenty-six years in Law Enforcement, with expertise in a variety of areas including; sexual assault investigations, crimes against children, domestic violence/stalking and no body homicides. She presents to international audiences and provides Law Enforcement consultations. Guest presenter, Cynthia Murphy, will provide expert insight into the digital footprint aspects of these investigations. With 30+ years as a law enforcement officer, Cindy is well-known in the computer forensics industry for her deep knowledge, her many years of experience and for solving new and difficult problems on a consistent basis. Cindy has testified as a digital and mobile forensics expert in both state and federal courts on numerous occasions, has presented internationally on various digital forensics and cybercrime topics
